

SOFTWARE ENGINEERING PROJECT PROPOSAL

Project Title	ConnectU: The Apex Social Network		
Abstract	Our Social Media App project aims to redefine online interactions, offering a personalized and engaging platform for users to connect, share, and express themselves. With user-friendly features like profile customization, content sharing, and interactive options, we're committed to fostering a vibrant online community. Users can customize their profiles, share life's moments through text, images, and videos, and interact by liking or disliking posts. The project encompasses designing and developing a responsive app, ensuring a seamless user experience across different screen sizes.
